

# About Our Organization

Hearts of Mercy is a 501c3 organization founded in 2010. Our mission is to break the cycle of poverty through learning and enrichment programs that motivate at-risk children to create a better tomorrow. We focus on helping them achieve educational success and giving them opportunities to participate in athletics and after school activities.

We are opening doors for children by exposing them to new interests and assisting them in pursuing their passions.

*We are excited to hear from you!*

# HEARTS OF MERCY

*Be the Change in the  
Life of Child*

## Tutoring and Mentoring

*"When a student comes in and proudly shows our tutors a report card or test results, there is no greater joy and satisfaction!" - Regina, Tutor*

## Our parents have said:

"By far one of the best programs I have put my child in. They made her feel welcomed and safe. Our daughter is a shy child and we'd hope the program would let her open up more and learn more about her artistic skills. She has blossomed and wanted to return for a second time! We can't wait for our other younger ones to join and also grow" - T.H. Mom, Barnegat, NJ

"Hearts of mercy is a one of a kind community! The volunteers are amazing! First summer being with them and it was just simply a blessing to find these kind people and amazing events! My daughters loved the summer camp!" -P.A., Mom, Barnegat, NJ

## We Offer

- Homework Help
- Skills Advancement
- Reading Program
- Art Classes
- STEAM (Science, Technology, English, Art, Math)
- Mentoring
- Horticulture (We planted & maintain several Monarch Waystations at community gardens)
- Funding for Extracurricular Activities

## Summer Camp

- Outdoor Sports
- Arts & Crafts
- Drama, Music & Dance
- Guest Speakers
- Bonding & Character Building

## Guest Speakers

In the past we have hosted:

- Law Enforcement Officers, Fire Chief
- Artists, Musicians, Athletes
- Cultural Educators
- Naturalist/Park Rangers

## LEARNING COMES FROM PERSEVERENCE, INCLUSIVITY AND CARE FOR OUR STUDENTS WITH FAITH, PATIENCE AND LOVE

When a student comes into our program, we take the time to evaluate him/her to decide on the instructional pace, activities, reinforcement and guidance that would best serve the student. Then, we closely monitor student progress by following district reports and testing. However, student achievement is not measured just in grades. When our students feel successful because of the quality time our tutors spend with them working on difficult skills, it increases their motivation and self-esteem. Perhaps the best way to measure a student's success is by their smiles!.
